Profile Contents

	Summary Profile	3
A summary of results about the people of this church, what they value and prioritise, how they relate to God, each other, and the wider community, as well as vision, innovation and leadership culture.		
	Detailed Review Part 1: People of this Church	11
Attendees' demographics, patterns of attendance and involvement in church life.		
	Detailed Review Part 2: Qualities of Church Health	16
A detailed look at each of the nine core qualities that shape church health and vitality.		

Weighing up Your Survey Results

It is always important to consider who participated in the survey and in what context. Compare the number of people surveyed (shown at the bottom of each results page) with the total number in the church. Consider what else was happening in the life of the church at the time of the survey and whether/how it might have influenced their responses.

Inflow and Outflow

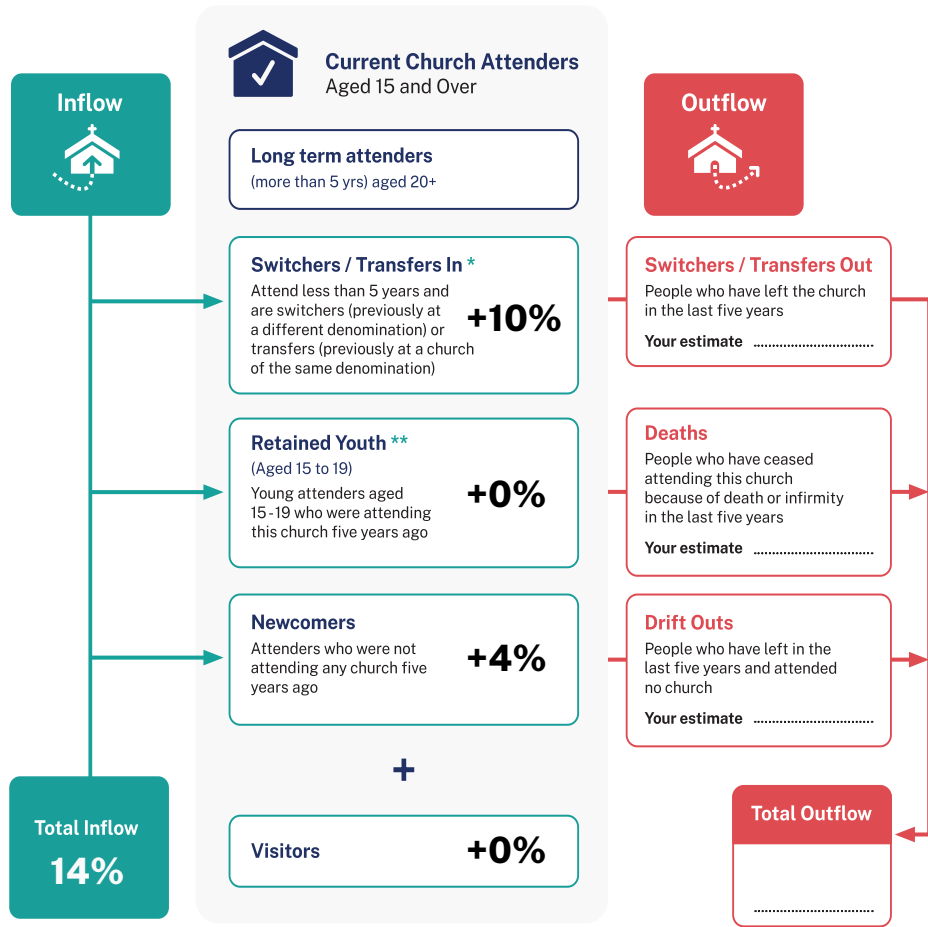

How do churches grow? In numerical terms churches grow when the inflow of church attenders exceeds the outflow.

About the NCLS Inflow Outflow model

Long term attenders have attended a local church for 5 or more years. There are three types of inflow. For each inflow path, there is a matching outflow:

1. People arrive from other churches and leave to go to other churches.
2. Children are born to church attenders** and people die.
3. Newcomers with no church background start attending and others drift out from church life.

Information from your church attenders (aged 15 and over) is used to calculate three types of inflows. Based on your current attendance, you will need to estimate your outflows.

Notes:

Current church attenders = Long-term attenders + inflow in past 5 years + visitors = 100%

* **About Switchers and Transfers:** Switchers change denominations. Transfers change churches within the same denomination.

** **About Retained Youth:** Instead of births, the calculation includes youth who are still attending and who were attending this church five years ago.

About the 9 Core Qualities of Church Life

Over 30 years NCLS Research has identified 9 Core Qualities shown to be central to the life of a vital and healthy church. The blend of these qualities points to the unique character of each church, its areas of strength and its potential for growth. These Core Qualities are measured and grouped into three areas of church life:

The Internal Core Qualities

Faith

Worship

Belonging

Internal Core Qualities

focus on the inner life of the community of faith, and a measure is made of the extent to which the community:

- has an alive and growing faith
- experiences vital and nurturing worship
- feels a strong and growing belonging

The Outward Core Qualities

Service

Faith Sharing

Inclusion

Outward Core Qualities

focus on the outward looking life of the church, and a measure is made of the extent to which the church undertakes:

- practical and diverse service
- willing and effective faith-sharing
- intentional and welcoming inclusion

The Inspirational Core Qualities

Vision

Innovation

Leadership Culture

Inspirational Core Qualities

focus on the vigour of a church and the catalysts that inspire a church culture to move forward. They give a measure of the extent to which the church has:

- a clear and owned vision
- openness to imaginative and flexible innovation
- an inspiring and empowering leadership culture

NCLS Research also explores three attendance measures for every church:

Young adult retention - the extent to which the children of the faith community remain regular attenders when they grow into young adulthood.

Newcomers - the extent to which newcomers with no church background who have arrived in the previous five years make up the congregation.

Attendance change - the extent to which attendance numbers have changed over the last five years through the inflow and outflow of people.

Circle of Strengths

Core Qualities Overview

Over 30 years of research in Australian churches, the NCLS has highlighted key indicators for each of the nine Core Qualities of church health and vitality. This Circle of Strengths is a simple 'broad brush' view of your church's survey results in each Core Quality of church life.

A single indicator of responses has been chosen for each Core Quality area. The order of the Core Qualities in the Circle of Strengths is based on ranking the indicator scores from highest to lowest.

Headline Indicators

In Rank Order	Quality	Indicator	Score out of 10
1	Belonging	Sense of belonging is strong and growing	7.5
2	Service	Number of different ways attenders have helped others in the last 12 months	7.3
3	Worship	Always experience inspiration in church worship services	6.3
4	Faith	Much growth in faith in the past year, through this church	6.2
5	Innovation	Strongly agree this church is always ready to try something new	4.9
6	Vision	Aware of and strongly committed to the vision of this church	3.8
7	Faith Sharing	Have invited someone in the last 12 months	3.7
8	Leadership Culture	Agree that leaders encourage attenders to find their gifts and skills to a great extent	2.2
9	Inclusion	Atenders certain they would follow up someone drifting from church	0.8

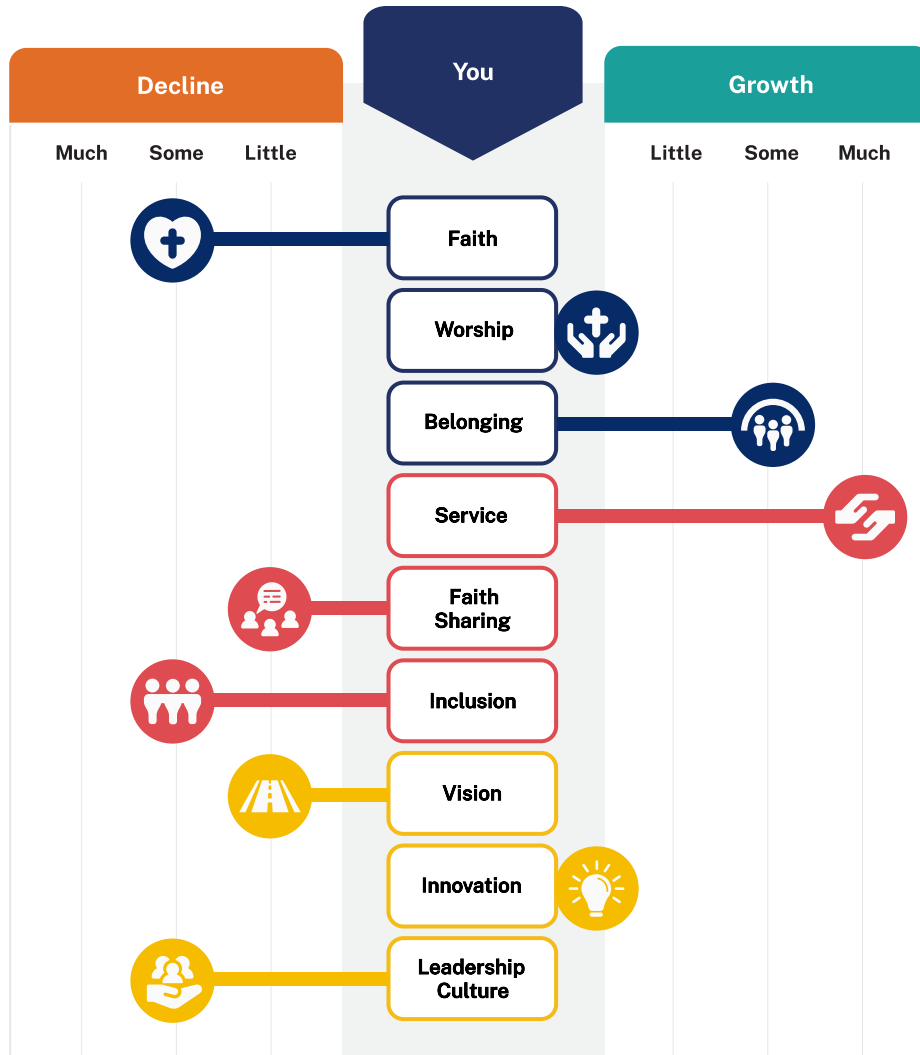

How do these scores work?

For each indicator question the percentage of the people in the church who selected a given response is converted into a score between 1 and 10. A score of 5 is the average across a representative sample of Australian Catholic parishes. See more at ncls.org.au/church-vitality

Change Over Time

When a church takes part in a Church Life Survey more than once, it's possible to see changes over time.

This chart shows how selected indicators of the qualities of church health have changed since the last Church Life Survey. (See ncls.org.au/church-vitality for more information)

No results for Change Over Time?

Now

For each Core Quality ask if this is an area of church life that has improved, declined or stayed the same over the past five years?

Later

Any church can conduct a Church Life Survey at any time that suits them into the future. New results will be compared with previous results. Contact NCLS Research for details.
